HAND PICKED CONVENTION PREFERRED
We agree with Harry Shorey of the Bridgeport News in the following editorial: "President of the Senate, Harold Murehie, of Calais, would repeal the primary law and return to the old method of nominating politicians, candidates through the convention system, although he would eliminate some of the faults of the convention system, which existed in the original law."

"This is what the state must eventually come to. The primary law, like the prohibitory law, has been tried and found wanting."

"We have always been keen for the theory of the primary law, because in principle it gives everybody a chance, that isn't the way it works out."

"It is too expensive for the state and so expensive for the candidate that none but a man of means can afford to play the game."

"We believe that each of the major parties would be better off with hand picked candidates than they would with the 'wind fall' which the present system is bound to produce."

"Early sponsors of the primary law told us that this method of nominating candidates was going to eliminate politics, but instead of so doing, it has bred a swarm of petty politicians, who unless they are eradicated will wreck party government."

What is a Bladder Physic?
A medicine that works on the bladder as on the bowels. Drives out impurities and excess acids that cause irritation which results in getting up nights, frequent desire, burning, big pains and headache. BUCKEYS (5 gr. Tablets) is a pleasant bladder physic.

Get a 25c test box from your druggist. After four days, if not relieved, go back and get your money. You will feel good after this cleansing and you get your regular sleep. Lester V. Ashton, Druggist, says BUCKEYS is a best seller.

AMBULANCE Service
With good roads and modern, comfortable ambulances, it is often more practical to transfer invalids, even for long distances, by automobile rather than by rail. Our equipment enables us to offer safe, easy transportation for the sick or injured over a radius of many hundreds of miles.

Sealing Wax Lesson

First take your stick of silver wax and hold it near the lamp so as to heat it enough to draw a few drops on a round tag. Cover the tag with silver wax, all but the hole in the tag, which we will leave for the cord. After you have one side covered, turn the tag over and run the other side. Then the rim on both sides. Be sure to have both sides smooth and if it is lumpy, rub the wax enough to run it on smooth.

Next take a stick of purple wax and drop one drop on the tag like

THE FORD AND THE CHEVROLET

By Francis Andrews

"Which is the mightier, the pen or the sword? Which is the better, the Chevrolet or the Ford? Very few people have a heard. But half the nation owns a Ford. All cars contain workmanship of hammer and file. But will the Ford run over a mile? And when they break down, you'll holler and cry. "Why didn't I buy a Chevrolet?" You can buy a Ford on the installment plan. But so can you buy a Chevrolet. The next morning, when the men woke up, they found a foot of snow and that the man had gone and taken some money.

Our car arrived, so glossy and neat. With a looking glass and an upholstered seat. And don't believe me who says I lied. When I said our car was the township's pride. One day our family took a ride. In what we named to be our "ride." And down the road, not very far. Came spluttering up to the garage. As she drove to pieces my uncle's Ford.

Heard and Seen at Advertiser Office

Capt. E. F. Coburn and Mrs. Coburn are leaving Fort Myers, Fla., for a short stay at St. Petersburg.

Truck plate, No. X-21-583, badly battered, was found and brought to the office by Micky Welch, Wednesday.

If you put jig-saw puzzles together, get a sheet of blotting paper on which to work. The trouble was noticed around. Blotting paper, size 19x24 for sale at this office, at 10c per sheet. Colors, gray, blue, green or buff.

The hanging sign over the door at the Norway Food Shoppe became unfastened by the wind, Monday, and the next to the building hung on a dangerous angle. The trouble was noticed and the sign went back into position before anything serious happened.

Many radio owners are kicking about noisy reception almost every evening. It was said to be fierce around the head of Main Street, Monday evening. No more in the village seems to be suffering from grinding and other sounds not the squealing kind. One expert suggests that a trouble hunter should be turned loose in Norway and the source of the disturbance located and stopped.

Truck drivers are being annoyed almost by boys jumping on the back end of the trucks and "hooking" a ride. It is a decidedly dangerous practice and should be stopped even if it becomes necessary to bringing some of the offenders into court. If it is not stopped, and stopped at once, someone is going to get injured with trouble in store for the auto driver, who happens along as the boy jumps in front of his car.

From a citizen who has seen and heard a plenty of depression: "I think the curious 'depression plant' would be much more interesting if they would call it 'prosperity plant' and would sound much more cheerful. Who wants to hear of depression growing in their home; people seem to want to throw it away after having it a short time, and we don't want it. It is a plant which, when it is called prosperity plant, it would be interesting to try color schemes and make beautiful plants, and forget depression and think of prosperity."

Boy Scouts who went on a hike up Pleasant Street way recently were much exercised over the fact that several of the beautiful birch trees along the highway had been ruined by some thoughtless and careless person. This time it was ripping the bark off but setting fire to the birch bark on the trees and ruining the whole tree, leaving a charred mass. The scouts wanted an item put in the Advertiser calling attention to this practice which was called by Boy Scout standards is wrong and a dangerous practice as well as causing injury to another's property.

Promiscuous spitting on the sidewalks is a menace to health. The Norway Village Corporation By-Laws, under Article 10, reads: "No person shall spit upon any public sidewalk or footpath or upon the floors of any theatre, hall or public assembly room."

People are careless over these things which seem so trivial a matter. But stop and think what takes place: when you spit, you are spreading forth an array of mucus material to dry and be sent into the air again as dust, to be breathed again by people. If it contains germs, it is a means of spreading colds and other diseases. Be careful and help lessen this means of contagion! This is along the same lines as a person sneezing without the use of a handkerchief, which is a very bad habit. The room in a fine spray to be breathed by others who are helpless in the matter and have to stand it. Stop spitting around and use your handkerchief when you sneeze and help curb the spread of colds and diseases.

A Rare Case. A woman who rides in a motor car a great deal, but does not herself drive one, says that she never particularly notices the look of her car, except that it is dark colored. The other day this lady was in Boston, doing a few errands. Her husband was to call for her at a certain business place and she was ready at the appointed time.

After waiting for a few minutes without seeing any car that looked familiar, she became aware that a man in a handsome new car was making beckoning signs in her direction. She looked determinedly in the other direction. This was absurd, a man should be able to tell at a glance that she wasn't the type to exchange places with a stranger. But the wigwagging kept up for a minute or two. But this time the lady was tapping a tiny foot in annoyance.

"Then there appeared from the car her husband. 'But, dear,' she exclaimed, 'that isn't our car! What are you, doing in that light-colored affair?' 'Isn't our old car?' the husband replied. 'But it is our new one and perhaps you better take a good look at it, so I won't have to indulge in double parking so long next time.'"

Malcolm Greeng, Coral Gables, Fla., writes Dec. 15th: "Daylight here until 6 o'clock. Wind light, S. E., temperature 80 degrees."

"At present we are in the agony (?) of the largest air meet in history. The Aro is a 754 ft. long and five planes can land on her at one time. It looks queer to see a plane scot in under her as it were, and not appear again. With the air so thick, the air is so thick, it looks like a swarm of hornets around her. All this is seen from the ground as my decision at present is to make but one flight and stay up."

"Never saw such wonderful weather in my life, every day perfect and all mid-winter days."

"This year a count has been kept on the number of times that they crossed the state line, and according to the paper, it has averaged about three thousand a week since the first of December. I have seen some by train and boat every day. I can see there are more people here than last year, but they are not spending much money."

"Everything in the eating line is cheap. I bought a nice leg of lamb today at 16c. Grapefruit 10c a dozen and oranges 5c a dozen or 50c per bushel."

"I have seen that there are two kinds of collapheum, one kind will stand water and the other will not, he probably used the wrong kind last summer."

OXFORD COUNTY UNITED PARISH

Parish Stilled by Deaths of Members—
Staff Still Busy With New Year's Calls.

The Parish has been saddened by the death of three of its friends this past week. Mrs. Carrie Learned McAllister, a young house-maker, passed away, leaving behind a saddened husband, Floyd McAllister, and her parents, Mr. and Mrs. Willis Learned and family.

The sudden death of Miss Suoma Mackie, a fine young high school girl, who since the death of her mother several years ago, has made her home with the Charles Saunders family, brought sadness into the hearts of her many friends throughout the Parish. She had lived part of the time in North Waterford and part of the time in Bridgton. She was active in the young people's society of the Parish, being one of those who attended the Congregational Young People's Conference at Lake Umbagog last summer. She took an active part in the church work and last summer was on the vacation school teaching staff.

In the passing of Mrs. Alfreda Abbott, our Parish has lost one of its friends who had reached her four score years. We will miss from our midst one who was so interesting, but we know the sadness was brightened by the thought of her "home-going," which she awaited so eagerly.

The Staff is still busy making New Year calls. It may be a little late, but remember that they have a lot of families to call on and must travel over several miles of road in order to reach some of them. They hope to see you as soon as possible if they have not been to see you already.

There will be a Circle supper and a young people's social at North Lovell on Friday evening.

A large delegation from the parish attended the meeting of the Christian Union League in Portland, last week.

NORTH WATERFORD

Suoma A. Mackie

Suoma A. Mackie, seventeen year old high school student, died early Saturday morning in the Monmouth Memorial Hospital at Long Branch, N. J. She had been in the hospital less than three days, with blood poisoning which spread from an infected tooth. She was an honor student in the Long Branch high school, a member of the Junior Woman's Club in Long Branch and a member of the Congregational church in Bridgton. Since childhood, her home had been with Mr. and Mrs. Charles P. Saunders of North Waterford.

She was beloved by a large circle of friends, both in Maine and New Jersey. The funeral was held Sunday afternoon at the home of Mrs. Fred P. Saunders, in Bridgton, and attended by her four sisters, three brothers, and a large circle of loving friends. There were many beautiful floral tributes as well as the comforting words spoken by three of her minister friends, Mr. Brandon and Mr. Bull of the Oxford County Lumber Parish, in which she had been such a helpful worker, and Mr. Sherman, who received her into membership of the Bridgton church.

Another good attendance at church to listen to the interesting sermon preached by Rev. R. A. Bramble.

The Grangers are to have a supper at 6 o'clock Friday night and the third and fourth degrees to be conferred on the five candidates.

Mrs. Chester Holt and children visited at her aunt's at North Berwick.

There will be a Circle at the vestry next week. A good program will be given, consisting of a farce, "The Wrong Mrs. Smith," readings and singing.

Mr. and Mrs. Arthur Saunders took Mabel Stanley to Norway, Tuesday.

Katherine Saunders spent Monday afternoon with Annie Hazelton.

Clara V. Tewksbury, who when a girl lived with her aunt, Mrs. Carrie Moulton, about three years, is now a licensed preacher at West Berwick.

The following had 100 per cent spelling for week ending January 20th: Alton Rich, Erna Rich, Erna Paine, Kurland Lord and Eudora Coleman.

The Rebekahs are entertaining the other lodges in the district, Thursday night.

MAKES WOMEN
LOSE FAT
Miss Ros M. Haines of Dayton, Ohio, writes: "I weighed 180, so started to take Kruschen. I never was so surprised as when I weighed myself the first week I lost 7 pounds. I just bought my third jar and am now still taking them and I never felt better in my life." (June 17, 1932).

To take off fat—take one-half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—one bottle that lasts 4 weeks costs but a few cents and is sold at Ashtons Drug Store or any drug store in America. If this first bottle fails to convince you this is the SAFE and harmless way to lose fat—your money gladly returned.

Don't accept anything but Kruschen because you must reduce safely.
